St. John's & Area

Being the most easterly point in North America has its advantages. For starters, we have our very own time zone. In Canada, the sunrise shines first on Newfoundland and Labrador.

We're the closest province to Europe, which means St. John's harbour is a safe haven for transatlantic travellers and a bustling commercial port. We're the youngest—and coolest—province in Canada, home to the oldest street in North America, and we've been welcoming adventurers from all corners of the world for over 500 years. A city rich in culture, we honour tradition while embracing eclectic sophistication.

When in St. John's, you hear your fair share of tall tales and yarns, and that's not all. As you walk through the winding alleyways of our vibrant downtown, you'll encounter fashionistas, chefs, musicians, and more, all elements of a colourful tapestry of experiences unfolding before your eyes.

Have a thirst for adventure? It's easily quenched by skirting the dramatic coastline on foot or enjoying a day on a boat on the bay having close encounters with humpback whales, puffins, or icebergs (and maybe all three!).

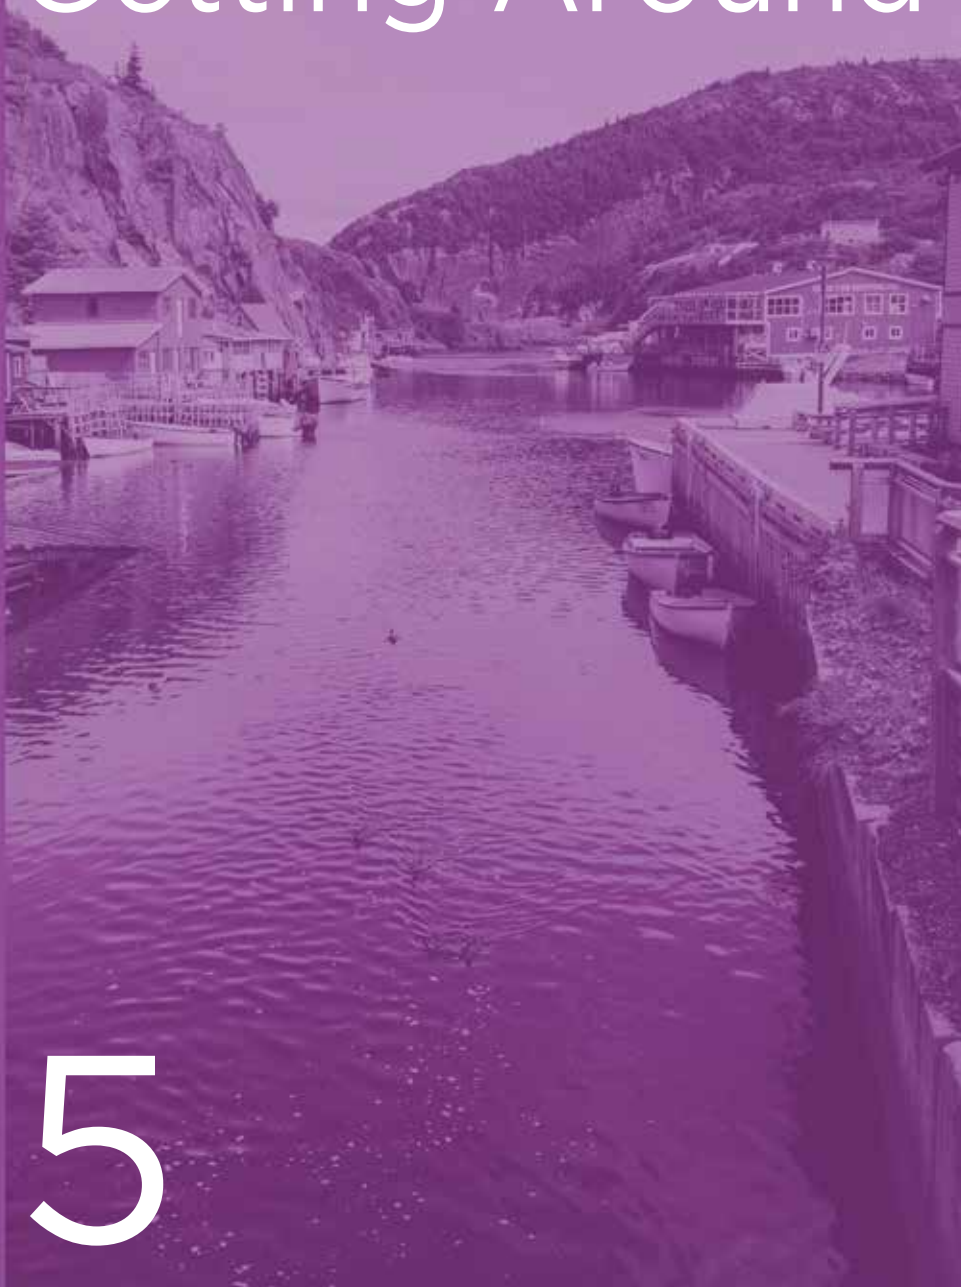

Spectacular vistas, extraordinary culinary pleasures, and unique architecture are just tiny slices of an urban experience that will feel like no other. But it's the colourful characters who are most memorable, in a place where strangers quickly become friends, and the local vernacular will delight and puzzle you all at once. Performances abound, sing along. Toe tapping is welcome. Colourful experiences. Colourful characters. Colourful encounters. Make your destination St. John's—you'll be glad you did.

Liquor Laws

Traffic Regulations

The use of seat belts is mandatory in Newfoundland & Labrador for drivers and all passengers. Radar detectors are illegal. It is illegal to drive with a blood alcohol limit exceeding .05 milligrams of alcohol per liter of blood / 0 milligrams for drivers under the age of 22. The use of hand held cell phones by the driver of a vehicle, when driving, is prohibited.

It is the law in Newfoundland and Labrador that children traveling in vehicles are safely secured in a car seat or booster seat that is appropriate for their age, weight and height. Children must ride in a car seat until they are a minimum of 5 years old or a minimum of 40 pounds (18 kg). Children must ride in a booster seat until they are a minimum of 4 feet, 9 inches (145 cm) tall, or a minimum of 80 pounds (36 kg), or a minimum of 8 years old. Approximately 125,000 moose inhabit the island of Newfoundland and most of our highways go through moose habitats. If you see one on or near the highway, slow down immediately and prepare to stop. Pay attention to warning signs. A road sign reading “Caution, Moose next 11 kilometers” means moose cross there.

Climate

Eastern Newfoundland has a moderate four-season climate. The cold Labrador Current and the warm waters of the Gulf Stream meet on the Grand Banks in the North Atlantic just off the coast of Newfoundland.

With our location in the middle of the North Atlantic, one can experience extremes of 'weather' in a short period of time. In fact, locals will tell you that if you don't like the weather, just "wait a minute, it will change".

Surprising to many is the fact that St. John's has the third most temperate climate of all cities in Canada (behind Victoria and Vancouver).

Summer days in the city and region are usually warm and we normally have an ocean breeze. We seldom experience the humidity that goes with summer heat in central Canada or the north-eastern United States. Summer evenings can be cool; carrying a sweater is a good idea.

Average Temperatures

St. John's and the Eastern region enjoy a temperate marine climate with few extremes in temperature.
